Introduktion

Institut for Videnskabshistorie ved Aarhus Universitet råder over en større mængde arkivalier af videnskabshistorisk art. Selvom instituttet kun i få tilfælde aktivt har gået ind i at sørge for, at arkivmateriale blev overdraget til instituttets varetægt, så har det igennem tiderne modtaget materiale af vidt forskellig art fra flere forskellige sider. Det er hensigten med denne folder at give forskere udenfor instituttet et overblik over, hvad der findes i instituttets arkiv og i hvor høj grad, det er registreret. Instituttet råder desværre kun over ringe økonomiske midler til vedligeholdelse og videre registrering af materialet, men det opfattes som en vigtig funktion at gemme materialet til eftertiden, og det opbevares under de bedst mulige forhold og registreres løbende i det omfang, økonomien tillader det. Det er instituttets håb, at så mange som muligt vil få glæde af materialet i forskningsmæssig henseende.

Forskere kan få adgang til materialet ved henvendelse til instituttet, enten til sekretær Louis Klostergaard, hvis E-mail-adresse og telefonnummer fremgår af forsiden eller til bibliotekar Susanne Nørskov, ivhbib@ivh.au.dk, +45 8942 3509. Materialet lånes ikke ud, men det er muligt på stedet at anvende det. Forskere, der får adgang til arkivmaterialet forpligter sig til at aflevere et eksemplar af publikationer hvori, materialet er blevet benyttet, ligesom reference til instituttet i publikationerne naturligvis er påkrævet.

Hvordan man bruger registranten

Registranten er inddelt i to dele; den første indeholder en liste over arkivmateriale fra en række danske institutioner eller foreninger, mens den anden er ordnet alfabetisk efter efternavnet på den person, arkivmaterialet stammer fra. Begge dele indeholder materialet af uens karakter; det er således højst forskelligt fra arkiv til arkiv, hvor meget materiale, det indeholder, ligesom også arten af materialet svinger. For hvert arkiv er angivet, hvor mange arkivkasser, det omfatter for at give en idé om omfanget. Bemærk også, at fodnoterne indeholder oplysninger om forekomsten af mere detaljerede registranter på dele af materialet. Disse registranter kan i et vist omfang findes på institutbibliotekets hjemmeside eller de kan købes ved henvendelse til instituttet. Denne oversigt kan også ses på instituttets hjemmeside.

³ Founded 1909. The core of the pictures were collected by employees at the Carlsberg Laboratory, Copenhagen. From 1964 to 1995 it was funded by the Carlsberg Foundation. Transferred to the History of Science Department in 1995 on the initiative of Knud Max Møller. A substantial part of the archives are still in possession of Møller, physically located at the Niels Bohr Archive, Copenhagen. Electronic index in English available.

⁴ Inaugurated 1911 as the municipal observatory of Aarhus, from 1956 owned by the University of Aarhus. Gift from the Institute of Astronomy at the University of Aarhus, through Poul Erik Nissen.

⁵ Founded c. 1947 by Peter Hansen, former director at the Danish public service broadcasting company DR. Received in 1996. Electronic index in Danish available.
